

# Chestnuts Primary School

'Encourage, Enable, Empower'

Parents Remote Teaching and Learning Handbook

Single Child in Isolation

December 2020

**Introduction:**

This handbook has been put together to explain the support and provision that Chestnuts will provide in the event that your child has to isolate in response to the Covid-19 pandemic while the rest of their bubble remains in school.

For those children who are isolating independently (not due to bubble closure), the learning we will provide in the core subjects will be a bespoke intervention package to address the next steps that your child needs to take in their learning journey.

The learning that we will provide in the foundation subjects will mirror the class-based learning that the children would have undertaken if they were in school, so far as is possible.

This booklet will break down the requirements of staff and pupils moving forward. It will also breakdown the requirements for those with access to suitable technology and those without. There is a role for everyone to play in delivering and participating in home learning during an isolation period.

# Single Child in Isolation

In the event that your child has to isolate, the following provision will be put in place.

A timetable will be produced outlining the home-learning and providing any links to websites the children need to complete this. This will be emailed to parents (via parentmail) and pupils in Years 1 and above (via the year group email to pupil school gmail account).

If you are unable to access the internet, and therefore Google Classroom, paper packs will be available. Please contact the office if you require a paper pack for your child and we will arrange collection / delivery.

An outline of the work that will be provided for each year group can be found in the tables below. This details the provision for children who have access to adequate technology and also the provision for those children who do not.

EYFS

<b>With Technology</b>	<b>Without Technology</b>
Phonics Video from the virtual classroom – appropriate to child’s RWI group	Fine motor control activity cards
Letter formation – sheet uploaded for child to practise in book sent home.	Gross motor activities
Numberblocks video – appropriate to child’s current level	Handwriting letter formation practise - RWI sheets
