

Communication and Language

In Conkers, we will be revisiting a range of different nursery rhymes and actions to go with them. We will learn some new songs and perform them with increasing confidence and enjoyment. We will also be increasing our attention skills to listen to longer picture books on the carpet. We will use actions or words to make a song request.

Personal, Social and Emotional

This half term, we will be focusing on setting a goal and understanding our feelings linked to trying to achieve a challenge. We will continue to have regular circle times where we talk about our feelings. We will relate this to the Zones of Regulation.

Literacy

In literacy, we will be listening to a variety of different stories. We will be listening to and making different sounds as we start phase 1 phonics. We will also be taking part in some Write Dance sessions where we will be making marks and drawing patterns.

Nursery Topic 3

Maths

In our maths learning, we will be naming 2D shapes such as circle, triangle, rectangle and square. We will be talking about size by using words like bigger or smaller.

Physical Development

Through physical development, we will be learning to hold pencils correctly. We will continue to improve our coordination by trying to hop, skip and balance on one leg.

Understanding the World

This half term, we will begin to respect all living things by going on bug hunts, talking about our pets and looking after our pet fish. We will be learning about colours, patterns and, later on in the term, planting seeds and caring for plants.

Expressive Arts and Design

During our expressive arts and design learning, we will be exploring instruments and the sounds they make. We will be joining materials and creating closed shapes using a variety of craft materials, crayons and paint.
