Blossom
Topic 2: All about me

My Communication

This half term, we will be reading stories all about people and how we grow and change. We will also be looking at photos of the adults and children in Blossom, matching the photos to the people. We will be learning the BSL signs for the different parts of our faces and bodies, like in the video here.

My Maths

Through our maths learning, we will continue to sing counting songs and rhymes, using sign language for key words and counting on our fingers. We will also be counting and recognising numbers. We will start to learn 2-D shape names. Learn 2D shapes using the song.

My Physical Wellbeing

In our P.E. lessons, we will be practising different balances and climbing movements. We will explore the different parts of our bodies and different ways that we can move them. See the video for moving bodies. We will also develop strength in our hands by threading, hole punching, dotting and cutting out different pictures.

My Social and Emotional Wellbeing

We will continue to find out about ourselves by noticing how we are feeling using the Zones of Regulation. Some os us will be able to notice how their peers and the adults are feeling too. We will label our emotions and begin to notice some physical changes that happen in our bodies when we are feeling different emotions.

The World Around Me

We will be focusing on our bodies and the science of how we grow and change. We will be exploring our senses and how we use them to see, touch, hear, smell and taste. We will also be noticing the season changing as we get colder and need to wear more clothes to keep warm. Play this game to sort clothes into those we wear in the summer and the winter.

My Creativity

We will learn songs about our bodies, including this one about our skeletons and learning about body parts with songs like Head, Shoulders, Knees and Toes. We will play instruments quietly and loudly using the sense of our ears and touch. We will be exploring our senses of touch and sight to be able to paint pictures of ourselves and we will choose different materials to make different crafts.
