Blossom
Topic 5 – The Sea

My Communication

During our English learning, we will be reading stories and information books and singing songs about what we might find under, on and next to the sea. We will be learning about different creatures through the book Commotion in the Ocean and will be finding out about the seaside through favourite characters like Bluey and Paddington. We will learn 'sea' BSL signs too.

My Maths

In maths, we will be continuing to recognise numbers using our favourite Numberblocks characters. Counting songs and games will reinforce our understanding of numbers, including subtraction and addition. Some of us will be continuing our learning about multiplication and division using sea related objects.

My Social and Emotional Wellbeing

During afternoon sessions, we will be reinforcing our continued learning on the Zones of Regulation, focusing on 'happy' and 'sad'. Some of us will also learn to recognise the emotions of 'silly' and 'angry'. We will be focusing on how to look after ourselves, looking at foods that are healthy and unhealthy and running and moving around outside to make our bodies stronger.

My Physical Wellbeing

In P.E. sessions, we will be having fun making our bodies move in different ways. We hope to run around on the field and throw different items such as beanbags, quoits and balls. Here is a sea themed dance that we will be using to practise freezing when the music stops. We will continue to develop our fine motor skills through exploring pegs, hole punches and other tools.

The World Around Me

Finding out about the world under the sea and what you might find there is the focus for this topic. We will be playing with toy sea creatures and looking closely at their features to sort them. We hope to have more fun splash days and would like to visit a splash park as our trip. Here are some information videos about sea creatures.

My Creativity

We will be learning songs about different sea creatures. A favourite of ours already is 'Baby Shark'. We will play instruments to accompany the songs. We will explore different tools and techniques in art and D.T. Making choices in which materials we will use is the next step in our learning. Some of us will learn to communicate why we have chosen these materials.
